& in ground
Pools**

aquamastergroup.com

A vibrant underwater photograph of two young girls swimming in a pool. The girl in the foreground is wearing a pink swimsuit and large pink goggles, smiling and making a peace sign with both hands. The girl in the background is wearing a dark swimsuit and pink goggles, also smiling and making a peace sign. Bubbles are visible around them, and the water is a clear, bright blue.

Above ground Pools

AQUA MASTER GROUP, MORE THAN 30-YEAR PARTNERSHIP THAT'S STILL GOING STRONG!

Are you considering an above-ground pool to spice up your backyard? Entrust your project to Aqua Master Group and turn your dream into reality.

SALT SYSTEM

AQUA TROL

Always crystal clear and ready for swimming, Soft silky feel - no more red eyes or dry skin

- Selectable super chlorinate function
- Microprocessor automates all functions
- For above-ground pools

AQUA TROL LOW SALT

Hayward's new **low salt** AquaTrol is now using much lower salt concentrations. A lower salt level in the pool is more environmentally friendly, eases concern over pool equipment corrosion and reduces the amount of salt necessary to purchase.

AQUA RITE

The World's #1 Salt Chlorinator for in-ground pools.

- Premium comfort - delivers soft, silky, luxurious water with no more red eyes.
- Convenient - never mix, measure, lug or store chlorine again.
- Huge savings - up to 50% or more over conventional chlorine.

SANICLEAR

- Self-Cleaning cell
- Powered by either 110V or 220V
- Lcd display of sanity level, water temperature and % of chlorine
- Super chlorination function

In-ground Pools

Make the most of summer and its hot, sunny days with Aqua Master's in-ground pools! Our pools are made according to tried and tested processes, much to the delight of our customers who expect our pools to meet high quality and safety standards.

Elegant, robust and secure, our in-ground pools are considered by many as some of the industry's best in-ground pools. Made using galvanized steel panels, they allow you to enjoy summer safely, and will do so for many years to come.

We offer an extensive selection of pool covers and shapes: this way, your in-ground pool will meet all your expectations. Our pools boast a meticulous finish, producing anaesthetically superior result that is beautiful to look at. With our team's help, you will be able to put together your dream in-ground pool so that you can have the best summer ever!

Shapes

Make the most of summer and its hot, sunny days with Aqua Master's in-ground pools! Our pools are made according to tried and tested processes, much to the delight of our customers who expect our pools to meet high quality and safety standards. Choose from:

Aqua Tradition 42" and 48" Height

The **Aqua Tradition** is an in-ground pool made of steel. Designed for several generations by the same proven techniques, the **Aqua Tradition** a wise choice for any family wishing to enjoy their summer in peace. Steel is an extremely durable and sturdy metal alloy, the installation of this pool is possible in all stabilized soils.

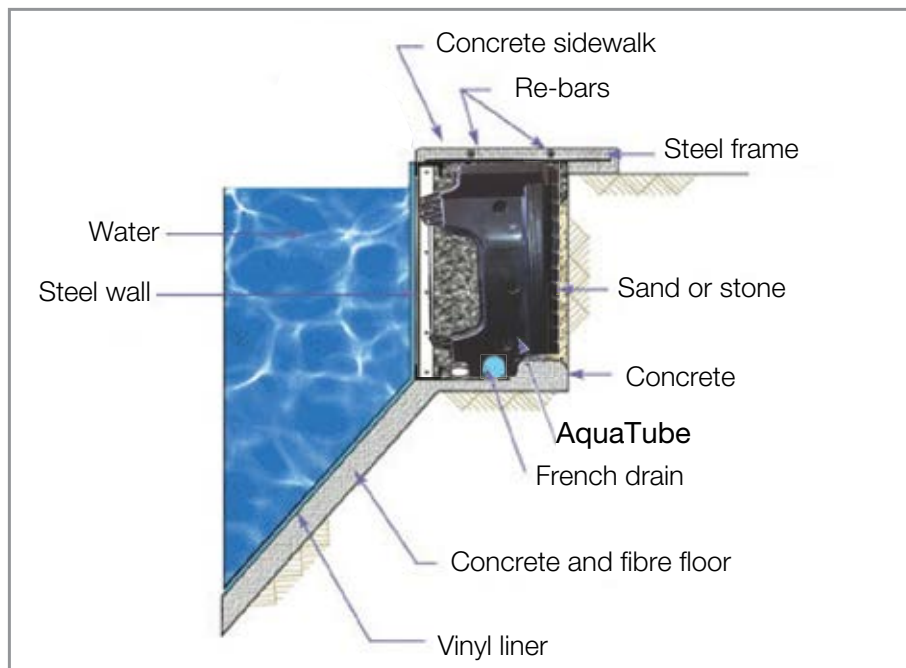

Aqua Tradition +

Choosing **Aqua Tradition +**, is to opt for one of the best pools in the industry. Designed using the same proven techniques as the **Aqua Tradition**, with galvanized steel panels tinned hot, **Aqua Tradition +** offers superior stability through the bracket *AquaTube* injected resin concrete on which is installed the sidewalk.

The **Unilook** Step (V.O.S)

For top of the range and unequaled solidity, opt for the unique look of this steel or concrete step covered with a vinyl liner.

Thanks to the **Unilook** step, it is now possible to decorate your inground pool with a rectangular full-width beach-type relaxation zone or to add a resting bench.

Opt for the unique look from a top of the line concrete pool.

Textured liners available Avignon, Basque, Colorado, Granite, Gentilly, Mackenzie and Wilson.
From 3 to 20 feet wide.

Liners

Colorful, rich and modern...

Aqua Master group manufactures superior vinyl pool liners, developed to withstand our harsh climate. Aqua Master liners meet the highest durability and quality standards in the industry. They are treated with a UV-resistant and fungicide coating to prevent the accumulation of mould, mildew and bacteria.
